Experience

Software Developer • XPENS.AI

Montréal, QC September 2024 – September 2025

- Built new features using **React, Python, MongoDB** and **Google Cloud**
- Developed a workflow system to **automate invoice processing** based on custom rules, enabling clients to replicate their business approval pipelines
- Created **APIs and an SDK** to integrate xpens.ai services with external systems
- Developed an **Intelligent Invoice Processing Tool** that processes PDFs to automatically identify, crop, redact, and return components, eliminating manual adjustments

Web Developer Freelance • Freelance

Montréal, QC 2025

- Built a **responsive marketing website** for an insurance provider using **Next.js, Tailwind CSS**, and **AWS deployment**
- Developed **serverless APIs** to power a dynamic quote estimation form, enabling lead generation and client conversion
- Implemented **clean UI/UX** design to clearly present services and improve customer engagement
-

Service Staff, Shift Lead • Falafel Yoni

Montréal, QC April 2022 – August 2024

- Oversaw shift operations, including opening/closing procedures and team supervision
- Managed daily stock orders and cash register operations
- Prepared food and handled customer orders to maintain service quality

Projects

Sustainable City Carpooling Platform (Team Project) 2024

- Developed a carpooling web app for PolyHacks 2024, integrating MongoDB Atlas for database management, Auth0 for secure authentication, and JavaScript algorithms for optimal ride matching.
- Collaborated in a team of three, demonstrating teamwork and problem-solving while focusing on sustainable urban mobility

Portfolio Website (Personal) 2024

- Designed and deployed a personal portfolio website, showcasing projects and technical skills with a responsive Bootstrap layout.
- Utilized AWS S3 for efficient hosting, ensuring optimal performance across devices.
